

Anaconda

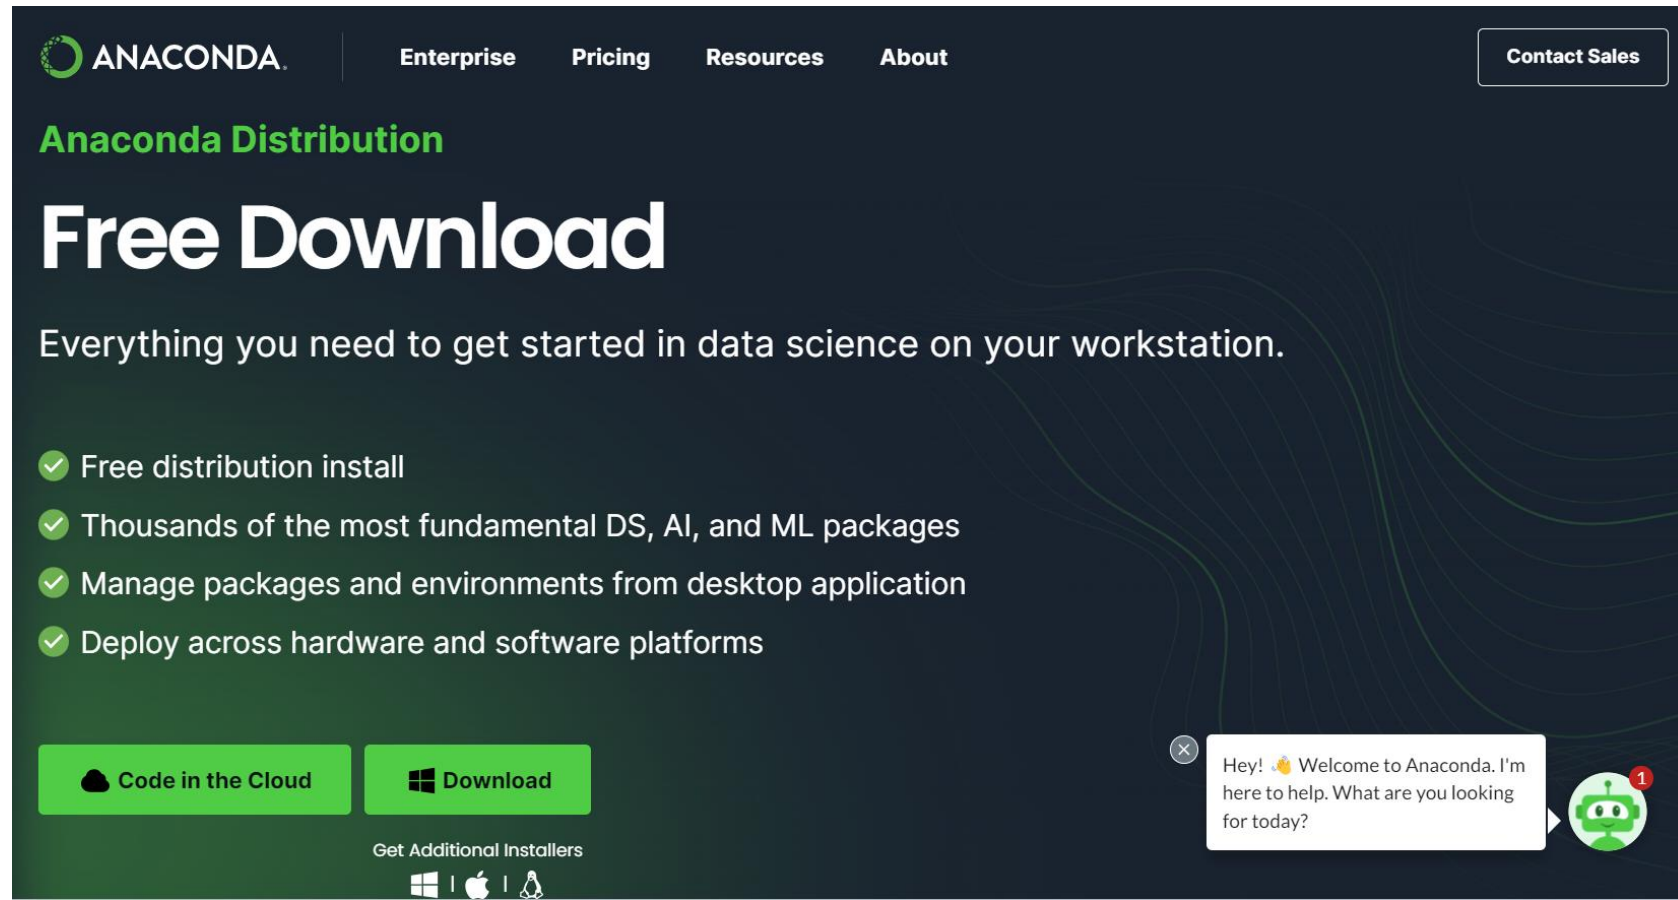

Yao-Huei Huang

2023/9/22

STEP 1:

- <https://www.anaconda.com/download>

The screenshot shows the Anaconda Distribution website. At the top, there is a navigation bar with the Anaconda logo, links for Enterprise, Pricing, Resources, and About, and a Contact Sales button. Below the navigation bar, the text "Anaconda Distribution" is displayed in green. The main heading is "Free Download" in large white letters. Below this, a subtitle reads "Everything you need to get started in data science on your workstation." A list of four benefits is shown, each with a green checkmark: "Free distribution install", "Thousands of the most fundamental DS, AI, and ML packages", "Manage packages and environments from desktop application", and "Deploy across hardware and software platforms". At the bottom, there are two green buttons: "Code in the Cloud" with a cloud icon and "Download" with a Windows icon. Below these buttons, it says "Get Additional Installers" with icons for Windows, Apple, and Linux. A chat bubble from a bot character says "Hey! 🌟 Welcome to Anaconda. I'm here to help. What are you looking for today?". A red notification badge with the number "1" is next to the bot icon. A small red circular logo is visible in the bottom right corner of the image.
